Targets

The Advisory Board of CDHAW was founded in 2005. Strategic targets of the Board are:

- Increase efficiency of communication between university and industry.
- Availability of qualified students/graduates.
- Sustainability of cooperation.
- Legal compliancy.

Career Mentoring Program

In 2014 a unique Career Mentoring Program for high-potentials, enrolled in the double degree program, was launched.

“During my own studies in Hong Kong, I had the chance to be part of a career mentoring program, from which I gained a lot personally. To share experience with young talents, is very rewarding, therefore, I support this program as a mentor.”

—
Mentor Dr. Stefan Lätsch, SCHOTT AG

“Coming to a new country. Getting to know a new culture. Learning a new language. Feels like a new world. The same counts for the jump from university to business. There are so many possibilities. It is a great opportunity to get an insight view from an experienced mentor. Someone who gives you the push to JUMP!”

—
Mentee Nicolas Butterwegge, UAS Jena

Why be partner?

- Having access to students of Sino-German double degree programs at renowned Tongji University in Shanghai:
 - Practical orientation.
 - Fluent in Chinese, German, English.
 - Cross-cultural competence.
 - Academic ambition to continue studies in Master programs in Germany.
- Be part of a unique network with Chinese and German professors and company representatives. Meetings will be held twice a year.
- German students enrolled in the double degree program in China have a mandatory internship included in their study program. During this time they have the X1 Visa and therefore have the permission for an internship in China.

“I support CDHAW, because I already get access to future engineers at an early stage. The students perfectly match the requirements of German companies in China.”

—
Glen Zhu, Managing Director, Rose Plastic China

“As a Consultant in the HR field, witnessing the development of young talents is extremely fulfilling! Hence, being a member of the Advisory Board offers me an opportunity to help to develop your competences!”

—
Kammy Kwang, FJK Kienbaum Consultants
